## Message from the Vice-Chancellor

Learning has undergone a metamorphosis since the advent of Distance Education. Higher Education now comes knocking the doors of the learner with tremendous amount of flexibility, accessibility and affordability. It has proved to be more inclusive to all those who could not enter the institutions of higher learning due to various reasons.

Today, there is no 'distance' in learning. Affordability and equity are the hallmarks of Distance Education. It has greater potential to take Higher Education crossing traditional barriers and make Education more relevant to the market needs in the era of Globalization and to ensure the creation of Knowledge Society.

A greater caution is to be exercised in expanding the frontiers of Higher Education through Distance Education. Constant revision and updating of course curricula, study material and a well established system of evaluation should be ensured without sacrificing equity, flexibility, affordability and quality. The challenges to Distance Education, in the coming years, have to be visualized and the responses should be carved out in the form of innovation in knowledge dissemination to keep pace with the market needs. In all these, the goal to reach the unreached should be realized in the right earnest. I am happy that the Directorate of Distance Education has drawn meticulous plans to pursue each of these goals. My hearty congratulations to the Directorate of Distance Education of Sri Krishnadevaraya University, Ananthapuramu for the rapid strides it has made over the years and I am quite confident that, it will witness a quantum leap in terms of its quality, accessibility and inclusiveness in the coming years. I wish the Centre for all success in its vision and mission.

I extend a warm welcome to all the students who enrolled in the UG and PG Programmes. I invite you to reap the benefits of Higher Education and make our region affluent in knowledge and skills.

With best wishes.

## Message from the Rector

Dear Student,

It gives me immense pleasure to welcome you to the Distance Learning community. I am aware that you have joined the UG/PG Programme, in spite of the demands on your time. Recognizing the social sacrifices you may have to make to pursue your studies, we pledge that we will put every effort to make your journey with us a rewarding experience, notwithstanding initial hiccups, if any.

In order to help you realizing your goal, we have developed a unique instructional system. This system includes self learning material, continuous feedback and assessment through assignment response. As most of the time during the teaching learning process, we will be at a distance, we have developed learning materials that are self learning in nature. In other words, you should be able to successfully complete the Programme independent of teachers.

Let us journey together and make the experience as rewarding as possibly we can. I wish you all success in your personal and academic endeavors.

**Prof. R. R. Venkata Raju**

## Message from the Registrar

It is well known fact that Distance Education “is a process to create and provide access to learning when the source of information and the learners are separated by the time and distance, or both.” In other words, distance learning is the process of creating an educational experience of equal qualitative value for the learner to best suit their needs outside the classroom. The present emerging technology is becoming widely used in universities and institutions around the globe mainly focusing towards promoting excellence in Distance Education Courses. With the recent trend of technological advance, distance learning is becoming more recognized for its potential in providing individualized attention and communication with students internationally.

Practically, Distance mode of Education helps to update the knowledge base of professionals at their working places. It always requires special techniques of course design, instructional techniques & methods of communication as well as organizational and administrative arrangements. Getting education through Distance learning is Economical and less time consuming. Distance Education mode paves way for an access to latest technologically-rich environment. Students can determine place and time of class in this Distance mode of Education. Students in the Distance Education are always in the advantage of getting exposed to the latest study material developed in high academic atmosphere.

It gives me immense pleasure to welcome the new students who are going to be enrolled in the newly sanctioned UG and PG programmes being offered by Sri Krishnadevaraya University and efforts made by highest university authorities, Higher Education Team, Govt. of AP, UGC team and official members of SKU-DDE is highly appreciable for continuous pursuance towards drawing attention in strengthening the activities of DDE programmes in S.K.University jurisdiction. Efforts are on to strengthen and streamline DDE through new initiatives and innovative courses that will provide a wider choice for students.

Sincerely, I hope that our SKU DDE team will focus on promoting excellence in academic pursuits of newly initiated programme .

With Warm Wishes.
